Grimme Evo 280 Clod Sep UB [293000802000045]

Year of manufacture: 2021

Date: 18.06.2025

Design:

Potato Technology

Category:

Potato harvester

€ 136,000.^{00}
plus VAT 19% (€ 161,840.^{00} Gross)

Equipment

Design	gezogener-roder
Bunker volume	8,00
State	Used
Dam Center Finding	✔
Cleared area	680

Description

- Tires 850/50 R30.5
- K80 bottom hanger
- 75cm row width
- separately adjustable center share
- Rod depth adjustment from terminal
- TerraTronic
- Automatic comb center determination
- Hydraulically driven six-disc external pulleys
- V2A sheets in the swing frame
- Vibrating beater in 1 screening belt with speed adjustment from terminal
- 2. sieve belt pitch 35mm
- Stepless drive for the 1 and 2 screen belt

- Adjustment of the scraper comb from the terminal
- Own hydraulics with oil cooler
- Height and angle adjustment of scraper roller 1. Separator from the terminal
- Slip monitoring 1 separator and 2 sieve belt
- Speed adjustment for 2 brushes or fingerbands from the terminal.
- Speed adjustment 1st and 2nd separator from terminal
- Scraper roller height and angle adjustment 2. Separator from the terminal
- Height adjustment of the finger strap to the right and left of the terminal
- Automatic speed adjustment of the separating device sorting table
- Comfort package reading table Pro
- Conveyor belt with carriers
- Admixture band adjustable
- Stone bunker with drainage belt
- Attachment elevator with ultrasonic sensor
- 8.0to bunker
- Bunker tape with cloth
- Automatic hopper filling system incl. automatic system for attachment elevator with filling optimization
- Bunker head lowering
- Potato outlet on the rolling floor bunker for box filling / drop brake
- Potato outfeed for 2.20 m wide boxes
- Air brake
- 40 km/h
- Automatic axle center determination
- Automatic tilt control
- Telescopic axle for the left rear wheel
- SmartView Pro
- Lighting package Pro
- CCI 1200 ISOBUS operator terminal
- GBX 860 control box
- Isobus control
- Memory Control
- load-sensing-hydraulik-
